

Digital application for financial assistance

If you have eID you can submit your application digitally. You apply between the 15th and the 20th of each month.

eID

Log in using your eID and complete the application form. You can also apply using your smartphone.

Save all documents

Collect all documents relating to the income and expenses that you intend to declare in your application. These include account statements, invoices, receipts, certificates, tenancy agreements, and other agreements. You do not need to send these documents with your application, but you must make sure you save them all. If your application is selected for a spot check, you must be able to verify the information you have provided by sending the documents to us.

Co-applicant

If you are married, a registered partner, or a cohabitee, this means your partner is also obliged to provide for you. In that case your partner is a co-applicant, and your total household income will be used as a basis for your application. If there are two of you applying, your co-applicant must also sign the application before it can be processed.

My page

You can follow your case via "My page", which you can access by using your eID to log in to *E-services and forms* on the Vårgårda website.

Apply here

1. Vargarda.se
 2. E-services and forms
 3. Health and Social Care
 4. Financial assistance and support, repeat application
 5. Click on "To e-services"
